

Classes at PGC in 2015

The classes offered at PGC are available to all PGC Members and their direct family members. These provide opportunities to learn, brush up, or review skill fundamentals, and are an excellent way to introduce family members and provide a solid foundation in a variety of shooting disciplines.

Direct Family Members include: Spouse, grandparents, parents, children, children's spouses, brothers, sisters, and grandchildren.

In the NRA basic shooting classes (Basic Pistol & Basic Rifle) the club provides guns, ammunition, and written training materials. The students provide a good attitude, hearing and eye protection. In the NRA reloading class the club provides all the materials too.
